

W SEATTLE

W HOTELS 
SOUND SUITE

THE FACTS

Seattle has always been a city of pioneers, leading the world in everything from coffee to technology to music. The launch pad for a spectrum of successful musical careers from Jimi Hendrix to Macklemore and Pearl Jam to Brandi Carlile, Seattle remains the city of who's new/next in music.

With its prime downtown location, resident DJ and concert series in the Living Room, W Seattle is the perfect destination to attract a range of top tier talent. Taking the music experience to the next level, W Hotels introduces the first W Sound Suite in North America, a private recording studio and creative space for artists to use whenever inspiration hits.

With a capacity for up to 25 people, this sound proof space includes a vocal booth, mixing equipment, and lounge area to host your next reception.

Available 24 hours, booking required
Sound Proof
Views of Mt. Rainier
WiFi
